CUMMINS, G. O. P. SPOKESMAN,  
TRIES PASS THE BUCK  
TO WILSON.

(International News Service.)  
WASHINGTON, Aug. 7.—Senator  
Cummins, chairman of the senate in-  
terstate commerce committee, in a  
letter to President Wilson today de-  
clared that the chief executive is al-  
ready in possession of "complete and  
plenary authority to deal with the ex-  
isting situation and that additional  
legislation will add nothing whatever  
to your power in the premises." Sen-  
ator Cummins' letter marked the  
opening of opposition to the presi-  
dent's recommendation that congress  
create a commission to deal with the  
entire subject of railway wages.

CHICAGO, Aug. 7.—"Railway traf-  
fic will be discontinued within three  
days." This prediction by H. L. Haw-  
var, president of the council directing  
the strike of railway shopmen in the  
middle west, followed today closely on  
the heels of an order issued by S. H.  
Alshon, regional director of railroads  
of the northwest, for railroads of this  
section to accept freight only as  
"subject to delay on account of the  
strike."

With the placing of an embargo on  
freight by four railways entering this  
city, alarm was felt today over the  
food situation, and reports are al-  
ready reaching the city food commis-  
sion of the boosting of food prices,  
"caused by the delay in shipments."

#### LOCALS DEFEAT HALEYVILLE CREW

ALBANY-DECATUR VICTORS IN  
SLUGGING BEE BY 12  
TO 7 SCORE.

Riddle wasn't a mystery at all to  
the Albany-Decatur hitters at Haley-  
ville Wednesday and the locals re-  
turned home this morning to open  
with Lawrenceburg after defeating the  
Haleyville outfit 12 to 7.

Graham was in the rifle pit for the  
locals for the first six stanzas but re-  
tired after Haleyville had scored sev-  
eral runs. With three men on, a  
Haleyville hitter hammered a home  
run, counting four. Bass relieved  
Graham and held the opposition. Rid-  
dle was hit hard throughout the game.

A near riot was caused early in  
the game, the local players declared  
on their return today, when, with  
Baker on third, Frohoff struck at a  
third strike which the catcher missed,  
Baker scoring. The umpire called it  
a foul but after strong opposition to  
the decision was made by the locals,  
it was reversed and the score allowed.

#### FOOD PRICES CUT BY UNCLE SAMUEL

(International News Service.)  
WASHINGTON, Aug. 7.—Substan-  
tial reductions of the government-  
owned foodstuffs to be sold the pub-  
lic, especially in canned vegetables,  
has been made by the war department  
and the new price-list will be announ-  
ced late this afternoon.

#### MANY LIQUOR THEFTS

(International News Service.)  
NEW LONDON, Conn., Aug. 7.—  
Numerous burglaries in saloons have  
been reported to the police since the  
advent of prohibition. In a number  
of cases cellars or other storage  
places have been entered and liquor  
taken away.

#### STRIKE VOTE ORDERED BY RAILWAY CLERKS RETURNED SEPT. 8th

FOUR HUNDRED AND FIFTY THOUSAND  
MEN TO BALLOT BY ORDER  
OF FORRESTER.

(International News Service.)  
Washington, Aug. 7.—A strike vote, returnable September 8,  
will be taken by the railroad clerks, warehousemen, station em-  
ployes and freight handlers, James J. Forrester, head of the union  
with which these workers are affiliated, announced today.

The ballot, Forrester explained,  
will be to determine whether the 450,-  
000 men affected "will accept Director  
General Hine's outlined proposal to  
have still another commission pass  
upon the wage question, or whether  
they shall use their economic strength  
to force direct congressional action  
on the matter of living wages."

"These demands for wage increases  
are for essential and immediate re-  
lief," Forrester said, "but we are not  
blind to the fact that wage increases  
alone cannot give us the solid founda-  
tion which as American citizens we  
are entitled to. Our organiza-  
tion stands behind the Plumb plan  
for public ownership. It has been  
active in giving it financial support.  
We see in this our only real and gen-  
uine hope for permanently bettering  
our condition. If congress can appro-  
priate money to pay interest of 6 per  
cent on railroad bonds when the Liber-  
ty loans were floated at 4 1/2 per cent,  
then congress can appropriate money  
to pay living wages to the men who  
operate railroads."

#### HOUSE COMMITTEE FAVORABLY REPORTS GREATER CITY BILL

An International News Service  
news dispatch to the Daily from Mont-  
gomery today stated that the Lynne  
bill, providing for a referendum for  
the proposed consolidation of Albany  
and Decatur, was favorably reported  
last night, following a hearing before  
the local legislation committee of the  
house, of which Representative Lynne  
is chairman. The favorable report in-  
sures the passage of the measure by  
the house, its friends claim.

Several residents of the Twin Citi-  
es appeared before the committee and  
opposed the bill, but their arguments  
are said to have carried little weight,  
in view of the fact that the bill pro-  
vides only for a vote. At the request  
of Mr. Lynne, local friends of the  
Greater City measure refraining from  
visiting the capital in advocacy of the  
bill.

#### CHICAGO NEGROES BACK AT PACKING PLANTS, WHITES OUT

(International News Service.)  
CHICAGO, Aug. 7.—With the re-  
turn to work of more than 10,000 ne-  
gro employees at the stock yards, the  
first blacks to be employed there since  
the start of the race riots, 150 white  
men employed in the machine shops  
of Swift & Company deserted the  
shops, refusing to work with the ne-  
groes. The negroes were taken to the  
stock yards under the guard of 1,000  
armed troops.

#### GAS PLANT COULD OPERATE FOR TWO WEEKS IN EVENT OF RAILROAD TIE-UP

The Alabama Power Company has  
on hand sufficient coal to operate the  
gas plant here for two weeks, or pos-  
sibly longer in the event that a car  
expected today comes in, it was stated  
by Manager Beauchamp. It also has  
on hand sufficient coal to keep the  
power plant in operation for a month,  
Mr. Beauchamp said.

#### Official Statement Issued by Shopmen

There was some delay in the  
opening of the proceedings of the  
Federated crafts meeting at the  
Masonic Theatre this morning. It  
was the intention that business  
should be begun promptly at 9  
o'clock, but as it took so long to  
seat the men, it was well toward  
ten before the gavel fell. It is the  
purpose of the meeting to request  
Manager Cagle, to open the doors  
of the Theatre tomorrow morning  
as early as practicable, so as to  
give the men plenty of time to be  
seated by 9 o'clock.

As on the previous morning the  
meeting was opened by a spirited  
singing of "America" the entire  
theatrefull of men standing. The  
opening prayer was an eloquent  
and effective one. It was pro-  
nounced as one of exceptional merit  
by many. In the opening, it was  
petitioned that all Americans be  
duly appreciative of the land of  
the free in which they dwell.  
Thanks was given that America  
had always stood out "bold and  
brave for the principles of human  
freedom." Thanks were offered for  
the brave stand that American sol-  
diers and sailors made for world  
freedom. Prayer was made for  
those in authority, and that nothing  
be done contrary to the principles  
of true unionism. Reports from  
the different committees were then  
read which proved favorable to  
the successful progress of the walk  
out throughout the country. Many  
speeches were made from repre-  
sentatives of all crafts, in which  
the fullest loyalty and fidelity was  
pledged. The meeting was closed,  
as it had opened with the singing  
of "America." By the  
PUBLCITY COMMITTEE

Albany-Decatur swung into the se-  
cond day of the walk-out at the local  
Louisville and Nashville shops Thurs-  
day with a pronounced tone of opti-  
mism in business circles. It was con-  
fidently believed that the walk-out  
would be of short duration and  
that a speedy working agreement be-  
tween the representatives of labor and  
the railroad administration would be  
affected.

The walk-out has been accompan-  
ied by no demonstrations of any char-  
acter, and except for the large number  
of men on the street there is no visible  
evidence that the largest local indus-  
try has temporarily suspended busi-  
ness. The big plant was idle again  
today and no effort is being made to  
operate it.

Profound interest was shown here  
in the dispatch from Washington de-  
claring the 14 principal railroad uni-  
ons are now acting as a unit and  
have presented to Director General  
Hines their disapproval of President  
Wilson's proposal that Congress cre-  
ate a commission to consider increased  
pay and declaring that the wage ques-  
tions must be settled immediately.

A general program to meet the  
present crisis, involving the threat  
of a nation-wide strike was submit-  
ted, the dispatch stated, and it was be-  
lieved here that the action of the uni-  
ons as a whole would aid in reaching  
an earlier agreement.

The four great brotherhoods, en-  
gineers, firemen, conductors and train-  
men, acting together were responsi-  
ble for the passage of the Adamson  
act several years ago and the force  
behind the present demands of labor  
will be much greater, it is stated, be-  
cause the 14 unions include practi-  
cally every craft having to deal with the  
roads.

#### PARSON'S WIFE SHEMMIES, SO HE DEMANDS DIVORCE

(International News Service.)  
OAKLAND, Cal., Aug. 7.—Rev.  
Joseph N. Callender seeks a di-  
vorce from his wife here because  
she danced the "shemmie."  
The clergyman told Superior  
Judge St. Sure that his wife  
shocked him with the dance, "an  
insidious and wicked thing that  
sways its victims from the paths  
of righteousness."  
Archie Williams, cafe dancer,  
corroborated the testimony of the  
clergyman, but the judge contin-  
ued the case. He wants to find  
out for himself.

#### PLUMB SAYS ROADS OF NATION LOOTED IN SYSTEMATIC WAY

AUTHOR OF LABOR'S BILL AP-  
PEARS BEFORE COMMITTEE

(International News Service.)  
WASHINGTON, Aug. 7.—Glenn E.  
Plumb, author of organized labor's  
bill for public ownership of the rail-  
roads, formerly a corporation law-  
yer, and now in the employ of the  
railroad brotherhoods, today took the  
stand before the house interstate com-  
merce committee.  
In a preliminary public statement  
Mr. Plumb declared that "every rail-  
road system in the U. S. was subject-  
ed under private control to system-  
atized plundering. He said that the  
interests that had affected this are  
again gathering their forces "for a  
corrupt and wicked cycle of system-  
atized plundering and looting of  
the public in the nation's highways."

#### STANDARD IS LOWERED

(International News Service.)  
WASHINGTON, Aug. 7.—The con-  
stantly mounting cost of living is com-  
pelling a corresponding lowering of  
the American standard of life, Glenn  
E. Plumb, author of the bill for tri-  
partite railroad control, told the house  
interstate and foreign commerce com-  
mittee today. "This situation," Plumb  
added, "is entirely hostile to the in-  
terest of humanity and is to be re-  
sisted by all the powers of mankind."  
The Plumb plan provides for govern-  
ment ownership of the railroads and  
their operation by a board made up  
of representatives of the public, the  
operatives and the classified em-  
ployees, and a profit-sharing scheme  
between the public and the employees.  
6,000,000 adult producers are num-  
bered in the supporters of the plan,  
Plumb told the committee.

During the past week, Plumb de-  
clared, the railroad brotherhoods have  
come into possession of "a state of  
facts never spread before the Ameri-  
can people or submitted to the jury  
of public opinion." He said he refer-  
red to the facts in regard to the  
"wrecking and looting" of the New  
York, New Haven & Hartford rail-  
road, Chicago & Alton, the Rock Is-  
land and the Frisco lines.

#### STRIKE DISORDERS AT LIVERPOOL ARE REPORTED

orders broke out here today and the  
troops were compelled to charge the  
crowd with fixed bayonets to dis-  
perse them.

#### Message at 4 O'Clock

HOUR OF DELIVERY SET BACK  
TO AVOID AFFECT ON  
THE MARKET.

(International News Service.)  
WASHINGTON, Aug. 7.—Absence  
of a quorum forced adjournment of  
the house this afternoon before Rep-  
resentative Mondell could offer a res-  
olution providing for a joint session  
tomorrow to hear President Wilson.  
Telegrams were dispatched to all ab-  
sentees asking them to rush here so  
that a quorum might be present to-  
morrow.

(International News Service.)  
WASHINGTON, Aug. 7.—Two steps  
directed against the high cost of liv-  
ing were taken in the Senate this af-  
ternoon. Senator McCormick intro-  
duced a bill to reduce taxation \$1,-  
000,000,000 by January 1, 1920. Sen-  
ator Myers introduced a measure call-  
ing for an investigation of the advan-  
tages of restricting the exportation  
of the necessities of life.

(International News Service.)  
WASHINGTON, Aug. 7.—A vir-  
tual re-enactment of the Lever food  
control law, with its scope greatly  
broadened, is among the recommen-  
dations it was understood today that  
President Wilson will make to con-  
gress when he addresses a joint ses-  
sion tomorrow afternoon on the high  
cost of living.

The Lever law is the weapon with  
which the department of justice today  
was waging its war on food profit-  
ers and hoarders.

The President was putting the fin-  
ishing touches on his message to-  
day. The fact that the President se-  
lected 4 o'clock in the afternoon as  
the time for the presentation of his  
message to congress was generally ac-  
cepted in official circles today as de-  
signed to guard against any undue  
influence upon the markets the ad-  
dress might have.

#### SPECULATORS ACTIVE

(International News Service.)  
WASHINGTON, Aug. 7.—Specu-  
lators are withholding vast supplies  
of food from the market in the hope  
that hunger-impelled strikes may  
bring higher wages with which to  
purchase these stocks, according to  
the belief expressed by a federal trade  
commission report accompanying fig-  
ures showing that, excluding govern-  
ment stock, the food products held in  
dry storage on June 1, was 19 per  
cent greater than a year ago.

(International News Service.)  
WASHINGTON, Aug. 7.—With all  
the law enforcement machinery of  
the government at work preparing  
criminal prosecutions of the big five  
packers and all food hoarders, Presi-  
dent Wilson today presided over a  
conference of the various cabinet of-  
ficers and department chiefs at which  
the entire subject of the high cost of  
living was discussed.

#### PALMER PROSECUTES "BIG FIVE" PACKERS

(International News Service.)  
WASHINGTON, Aug. 7.—Prepara-  
tions were being completed today by  
U. S. Attorney General A. Mitchell  
Palmer for the prosecution of the big  
five packers—Armour, Swift, Wilson,  
Cudahy and Morris—on the charge of  
violating the Sherman anti-trust law.  
Recent reports of the federal trade  
commission had stated that these  
packers had formed a combination to  
control food products. Announcement  
of his intention to institute the suits  
was made by Mr. Palmer in a state-  
ment given out last night.

#### COL. L. A. DEAN IS LOOKING INTO THE BRIDGE SITUATION

Col. L. A. Dean, of Rome, Ga., is  
here today conferring with local citi-  
zens on plans to construct a bridge  
across the Tennessee river here. Col.  
Dean declared he did not care to dis-  
cuss the plans yet for constructing  
the bridge but admitted that the out-  
look is bright.  
The Daily, several weeks ago, pub-  
lished a story telling of plans of Al-  
bany-Decatur citizens to build the  
bridge, probably on the site already  
permitted by an act of Congress. It  
is estimated a bridge could be built  
for approximately \$600,000. It would  
open a great trade territory to the  
cities, as well as increase the tourist  
trade.

#### RUSSIAN REDS ARE DEFEATED IN BATTLE

(International News Service.)  
HELSINGFORS, Aug. 7.—Russian  
Bolshevik troops have been defeated  
with heavy losses in violent fighting  
with the Estonians. Horrible mas-  
sacres have taken place in Petrograd  
following the defeat.

**A FIRING SQUAD FOR THE PROFITEERS**

When Warren G. Stone, testifying before a congressional committee at Washington Wednesday was asked if he had any plan to reduce the high cost of living, he replied that he had not but that he might suggest a firing squad for profiteers. And the suggestion is one that the nation as a whole will applaud, for much of the present suffering among the poor for lack of food, is directly due to the conscienceless man or corporation that has taken advantage of conditions produced by the war to wring money from the American people. Such offenders deserve the extreme penalty—death by accurate shooting. They are as much the enemies of their country as is the anarchist or the Bolshevik. They are far more harmful and dangerous than the wild-eyed alien who waves a red flag and throws a bomb, for the latter is always under suspicion and meets a quick death if caught, while the profiteer who has enriched himself by advancing the price of foodstuffs is often protected by that smug reverence which human nature so readily accords to the possessor of riches, the "malefactor of great wealth." A few executions of these trade pirates would do much to restore normal conditions, for those who do not respect law or right often have a wholesome fear of a sudden end.

**TRADE COMMISSION EXPLAINS WHY SHOES ARE HIGH**

The federal trade commission, a body of men entrusted by law with the task of investigating trade conditions in the United States, in a report submitted Wednesday gave a very substantial reason why shoes are so costly. The commission stated, and its findings were based on thorough investigation, that the profiteer was responsible, thus confirming the public impression that the consumer was being held up either by the manufacturer or the wholesaler. Even with the present high price of hides, which is altogether inexcusable, and the higher wages paid labor, which amounts to but a few cents per pair, there is no possible way of figuring some fifteen or twenty dollars of value in a pair of shoes. And it might be mentioned that small ladies' sizes cost about as much as the mightiest gun-boat that adorns a masculine extremity, thus destroying the argument that the cost of leather is to blame. It will be unfortunate if the findings of the commission do not lead to prosecutions. Mere criticism doesn't phase the gentleman who is growing rich through cut-throat methods.

**YE GODS AND LITTLE FISHES!**

Fresh meat consumers of Greater Huntsville read the following news article appearing yesterday in the Albany-Decatur Daily just 25 miles west of here and then compare it with the 30 and 35 cent goods you get here and also as an answer as to why the great difference we must respectfully refer you to our local meat dealers: "Another shot at the high cost of living was taken today when M. L. Schulman, well known wholesale produce dealer, announced that native beef today is selling at from 8 to 10 cents a pound wholesale."

"On account of the high price of hides, beef today was selling at from 8 to 10 cents a pound to the butcher," he said. "Hides today were worth 45 cents a pound or about five times what the beef is selling for. The native beef is as good as any obtainable and we should boost our market by using native beef."—Huntsville Daily Times.

**WHY CAN'T WE DO IT IN FLORENCE TOO?**

Another shot at the high cost of living was taken today when M. L. Schulman, well known wholesale produce dealer, announced that native beef today is selling at from 8 to 10 cents a pound wholesale.

hides, beef today was selling at from 8 to 10 cents a pound to the butcher," he said. "Hides today were worth 45 cents a pound or about five times what the beef is selling for. The native beef is as good as any obtainable and we should boost our market by using native beef."

The above is reproduced from the Albany-Decatur Daily, a newspaper printed at Albany, Ala., just 43 miles from Florence. Good beef cattle are being raised in Lauderdale County. There ought to be a good local market here for beef. Is there?—the people would like to know.

We are advised that beef steak was sold by Albany butchers yesterday at 15 cents per pound. Local butchers ought to be able to buy as cheaply as fellows in the same line in other towns.—The Florence Daily News.

Flour has fallen \$1.00 on the barrel. We knew something was bound to drop.

Cheer up! The thirst may not be so bad when the cooling fall is here.

The wolf at the door and the profiteer must be in collusion.

It is a good idea, once in a while, to let a mental process oppose the waves of emotion that sweep over us.

The Twin Cities make a splendid place in which to live and find harborage, but one big city would be much better for business purposes.

It would seem like the ten commandments would be as eagerly sought after and read as a news story, yet so many seem never to have heard of them.

There are those who claim that genuine hospitality ended in the South when the bone dry law went into effect.

Unpopular persons are those who are more interested in the truth, than they are in cordiality and surface friendship.

The young Prince of Wales has landed in America. It is to be hoped that he brought his provisions with him.

The former Kaiser makes such a good wood cutter is the reason Holland hates to give him up.

The trouble with the profiteer is that he sought to conquer the world before conquering his own avaricious spirit.

Men are on pretty good terms when soon after some disagreeable thing has come up between them, they go ahead pretending that nothing has happened. Women are said not to forget so easily.

It is worthy of note that corn jumped ten cents a bushel on Wednesday's market, following the report that the federal government would not authorize the sale of wheat at the guaranteed price. This shows the respect that the speculators have for powers that are not exercised.

By continually advancing shoe prices, the manufacturers are showing no disposition to "stick to the last."

"Autocracy in industry," Chief Stone's latest phrase, sounds nearly as good as "functioning," "inocuous desuetude," "iridescent dream" and "making the world safe for democracy."

The high cost of living would come down with much more alacrity if the republicans were not in control of congress. Even the profiteers have their friends.

**TODAY**  
WALL STREET LIBRARY.  
MILK GENTLY, PLEASE.  
NEW CLASS CONSCIOUSNESS  
MOST SHAMEFUL CRIME.

(By Arthur Brisbane)

(Written Wednesday, July 30.)  
Somebody wanted a branch of New York's Public Library located in Wall Street. It would have been a pleasing to watch a man buy one hundred shares of Steel, rush to the Wall Street library, read a few lines of the Ode to the West Wind and fly back to the ticker.

The Wall Street branch is not to be, says Mr. Anderson, library director, because land costs too much down there.

Which would have been the most popular books in such a library? Lives of Croesus, de Medici, Jacques Coeur, Rothschild and John D. Rockefeller would probably have come first. It would have been a library of interesting specialization.

To get best results from a cow, farmers tell you to milk her steadily, gently, quietly and milk her dry. According to Senator Poindexter, of Washington, the Standard Oil Company neglects one of these recommendations in milking that profitable

financial cow, the United States of America.

Mr. Poindexter says the Standard Oil Company of California rules the Pacific Coast and in one year, 1918 on an investment of fifty millions, took our forty-four millions in net profits, not quite one hundred per cent.

The Standard Oil programme seems to be. Milk steadily, VIOLENTLY and very dry. Standard Oil may be wise, on the whole, for who knows how long the milking will last? The farmer owns his cow all her life; it may not be so with the Standard Oil cow.

Six men and two women have been condemned to death in Paris, and a dozen more sentenced to twenty years imprisonment on dreadful charges.

These men and women, known as the "Lion Informers," were convicted of betraying their French compatriots to the Germans, while the latter occupied Lyon. These French citizens even denounced French soldiers in hiding. The soldiers were brought out and shot. Such after-the-war convictions would seem to justify Bernard Shaw's recent statement that the Germans' dirty fighters were no dirtier than those on our side, and their gallant fighters as gallant as any of ours.

That statement made by Shaw so soon after the war, and tolerated by the British, shows that free speech and free thought have come to life in England more rapidly than in the United States. Such things as Bernard Shaw writes and publishes there would not be taken well here.

The Shipping Board announces that it has 829 ships, of four and one-quarter million tons dead weight, running on sixty-two trade routes. There, for a few minutes, you have the American ships back on the ocean. In addition two and one-half million tons of commercial shipping are still employed by the Army and Navy, and there are millions of tons in shipping still to be built by the Government at the people's expense.

In that Government-owned shipping there would be promise of prosperity in peace and safety in war. But, unfortunately, the Shipping Board also announces that it intends to sell the ships built by the people to private individuals, for less than they cost, and with permission to put them under foreign flags if desired.

It is difficult to believe that this shameful programme can be carried through with the approval of President Wilson and the Congress. The worst of the grim joke is that besides selling the ships for less than they cost, the United States Government is to help finance the private buyers and is under no circumstances to have any share of profits that may be earned. That was stated publicly in so many words by the head of the Shipping Board.

The statement is called to the attention of the President of the United States and any others that may be interested.

**JUST IN PASSING****HAD GREAT SCHOOL**

"The 200 or more secretaries who attended the summer course at Eagle Mere Park certainly enjoyed their visit," said H. F. Henley, secretary of the Albany Board of Commerce. "In addition to the regular work of the school, the secretaries managed to find time for a varied program of

entertainment. The East and West met on the ball field four times with two victories to the credit of each. The tie was never played off. There were many other features of out-door sport."

**HALEYVILLE STRENGTHENED**

"Haleyville strengthened for the series there," said E. Baker, center-fielder of the local ball team. "In addition to Mosely and Curtis, who played here, several additional players were obtained from Birmingham for the games on their own diamond. Neither did we get the breaks over there. In the first game one of the Haleyville players hit a ball through a hole in the left field fence and got a home run. The decisions of the umpire were all against us."

**ATHENS BUILDS STREETS**

"Athens is certainly doing a large amount of street improvement work," said Tul Worley, of the circulation department of The Daily. "I was up there yesterday and the streets are badly torn up but the work is being rushed and it will not be long before the progressive Limestone county capital will occupy a leading place in the ranks of well paved cities of the state."

**LEMON JUICE FOR FRECKLES**

Girl! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates. (Adv.)

## SCHEME DIDN'T WORK RIGHT

Business Man's Pleasant Evening  
Nothing at All Like What He  
Planned It Should Be.

"Gosh," exclaimed the business man. "I had the disappointment of my life last night. Even this sunny morning can't take away the sting. For the past month I don't believe I have had one nice, quiet, peaceful night at home—an evening of perfect relaxation. It seemed longer than that."

"Yesterday morning, with the thought that at the end of the day I would be free, my step to the office was more springy than usual. Not a business nor social engagement did I have. If anybody had attempted to start anything in either line I would have said, 'Nothing doing. I am going to be busy,' and I would have finished the sentence to myself with 'at home.'"

"I felt like a lark all day. 'Nothing to do tonight,' I kept repeating to myself. 'Nothing at all! Absolute freedom. I will catch up on the magazines that have been accumulating. I will take up the book that I haven't looked into for so long that I have forgotten who the characters are. I will sit in my favorite soft, easy, sun-drenched deep chair under the reading lamp. I will don my dressing gown and slippers. I will luxuriate all evening—a nice, quiet, long evening.'"

"I could hardly wait for dinner to be over. When it was, I immediately set about doing all that I had planned. I relaxed, grinning with comfort into my chair. My dog curled up at my feet, something he had not done for a month, too. I went to my reading. I read for an hour. And then, darn it all! I got so blasted sleepy that I couldn't hold my eyes open. I just had to go to bed. I hated to do it and I was thoroughly disgusted. But there was no help for it. And there you are: my glorious evening completely ruined because I was too sleepy to enjoy it."—Providence Journal.

## WATCH CREATION OF FLORA

Botanists Intensely Interested in Nature's Work on Volcano Island in Bombon Lake, Luzon.

The destruction of vegetation in isolated regions is a matter of great interest to botanists, who are making increasing efforts to observe the creation of the new flora taking the place of the old. Volcano Island, in Bombon lake, Luzon, was chiefly covered by grasses and small trees before the eruption of the Taal volcano in 1911, but the eruption destroyed all plant life except some clumps of bamboo and a few bananas in the northern part of the island. In a report on the revegetation W. H. Brown, E. D. Verrill and H. S. Yates note that in six years 29 vascular plants had been recorded, the chief species being a few grasses. Of the total, 54 per cent were probably introduced by birds, about 20 per cent by the wind and about 10 per cent by the water—a different showing from that of the more exposed island of Krakatoa, in the Strait of Sunda, where the chief work of birds was small. The growth of vegetation in Volcano Island is still sparse—a condition attributed to lack of proper soil and the ground's small amount of water and high proportion of sulphates.

## ALPS HAD THEIR REVENGE

Famous Airman Who Had Defied  
Great Mountains at Last Meets  
His Death There.

Few of the men who have given their lives to the air have met a more impressive end than the handsome, gold-haired young Captain Natale Palli. He was the favorite pilot during the war of Maj. Gabriel d'Annunzio, the Italian poet who became one of the greatest airmen.

Palli evidently had motor trouble when right over the Alps. With extraordinary skill he landed his machine on a glacier 9,000 feet high. Getting out of it unhurt, he started to climb down the mountain side. A snowstorm soon set in around him, but on he plodded through the floundering drifts towards the little village of Bourg St. Moritz, in the valley below. For a whole day at least he stumbled forward, without food and pierced by the bitter cold.

Then, when he was 200 yards from a mountain hut, and within sight of the Alpine village, his strength gave out and he sank down into the snow. His courage urged him to another effort; the snow was found with the marks of his struggles to rise again. But he could do no more, and there two days later, a passing peasant found the gallant young Italian pilot lying with his head on his arm as if asleep, half-covered by the snow, and without a bruise on his body.

So did the Alps which he had conquered revenge themselves upon Natale Palli, who had escaped death in 140 raids over the enemy lines in war.

## EASY TO IMPROVE MEMORY

Whole Secret Is to Concentrate the  
Mind Entirely on the One  
Thing in Hand.

People of poor memory are generally inattentive and fail to concentrate. Systems like Pelmanism help to good memory in that they focus the mind on the thing at hand. Dreamers read, and for the life of them cannot tell what the last sentence was, unless it was something in which they were vividly interested waking them out of their dream, and then it is fixed for good, thus showing that memory is conditioned on attention and concentration. To cure this requires heroic treatment. Make it a religious resolve to attend only to the thing in hand. If it is reading, concentrate on the book so thoroughly that every sentence takes clearly defined meaning in the mind. One cannot think of something else and at the same time understand and remember what he is reading. The trick in the game of memory is to overcome dreaming, abstraction, inattention. It can be done by persistent, patient, long-continued effort.

## Paths of Democracy.

To accustom oneself to disregard the accidents of manner and station sufficiently to see the man as he is, to have a clear sight for genuine character under any of the disguises of unfamiliarity and prejudice, to know how simple and how common are the elements that go to the making of manhood, are the paths that lead to belief in democracy.—George E. Woodberry.

## Getting Acquainted With America.

The United States has been getting the greatest advertising during the last two years that any nation has ever received, and the results of this should be reaped in foreign trade, just as any merchant obtained custom from an advertising campaign.

Since the beginning of the war there has been a steady stream of foreign missions on tour in the United States, headed by men of prominence in their respective countries. They have visited the shipyards, the steel mills, the camps and the industrial cities, and they have seen the miles of fertile farm lands and gained a new conception of the vastness of America and its ability to put over big things on a big scale. A convention of the League of Nations in Washington will add still more to this world knowledge of America's resources. The chief thing now to be sought is the holding of the advantage gained.—Forbes Magazine.

## Big Brother Movement.

The "Big Brother" movement was started in 1904, by Ernest K. Coulter, in New York city. Since that time the work has been taken up in over 100 cities. There is a staff of paid workers, supplemented by volunteers—lawyers, physicians, merchants, etc. The object is to obtain the cause of the boy's troubles—whether it be truancy, stealing, lying, running away from home, etc. Then with the cooperation of parents, through the medium of the "Big Brothers," an effort is made to build up within the boy a sense of honor and good citizenship. The headquarters are at 200 Fifth Avenue, New York city.

## Put Clothes in Box Car—Lose 'Em

Despite the unsettled transportation situation, one railroad is hauling a quantity of clothing somewhere today and three Albany youths are hawking their unkind fate and neither party wanted the shipment of clothing made.

Yesterday the three youths went to the Riverside beach for a swim and disobeying the ancient injunction to "hang your clothes on a hickory limb," placed them in a box car.

While they were swimming a switch engine came along, picked up the cars and pulled them away. The youths were forced to come back to the city clothed only in their bathing suits and a diligent search so far has failed to discover the car containing the habiliments.

## American Concerns After Austro Krupps

GENEVA, Aug. 7.—It is learned from a reliable source that American steel companies are negotiating for the Stodka works in Austria, which correspond to the German Krupp works.

## The Needs of "The Inner Man" and "The Inner Woman"

It's hard to "minister to a MIND diseased," but an easy matter to minister to a diseased BODY; to supply the remedial needs of "the inner man"—and the inner WOMAN.

Most everybody is, more or less, constipated and frequently bilious. Neglect of these conditions is dangerous—foolish and useless.

"The inner works" of the human body are so complicated that they easily get out of order; and when anything's the matter with any of THEM, there's going to be trouble with the whole physical machinery of life.

DR. THACHER'S LIVER AND BLOOD SYRUP is a standard remedy for the internal ills that bring about the ailments common to men, women and children. It is gently but effectively LAXATIVE, or vigorously and thoroughly CATHARTIC, according to the dose prescribed.

It purifies and tones up the BLOOD, making it run red, rich and riotous in health-giving current through the system.

It helps to induce natural action of the KIDNEYS—the drainage system of the body which must be kept open and clean to perform its proper function.

DR. THACHER'S LIVER AND BLOOD SYRUP is the prescription of an old family doctor, used with his thousands of patients in a lifetime practice. It is a purely VEG-ETABLE preparation compounded in the laboratories of the THACHER MEDICINE CO., Chattanooga, Tenn., sole proprietors. It is sold by druggists everywhere.

### Wideawake Mexicans.

A Mexican citizen of Mazatlan recently has been granted a concession of 100 hectares (about 247 acres), and so much more as may be necessary, at the railway station of Oso, state of Sinaloa, for the purpose of establishing an experimental farm to demonstrate the economic value which would result from the proper use of modern American agricultural machinery in the production of crops. It is the intention of the concessionaire to rent portions of the lands at a nominal cost to American manufacturers of agricultural machinery and implements, who may send experts to demonstrate the machinery with the view both to promoting sales of the American goods and to educating the people in the more modern farming methods.

### STEERED BY SIXTH SENSE

Exploits of Blindfolded Norwegian Have Proved a Puzzle to Expert Danish Scientists.

Scientists in Denmark are puzzled by a Norwegian, one Emil Knudsen, who, although blindfolded and carefully watched, steered a steamer through the intricate channels of the harbor of Copenhagen, keeping a true course and adroitly dodging other vessels. He explains this by claiming the possession of a "sixth sense."

Knudsen is a man of middle age. When he came to Denmark from Christiania, he became at once an object of interest to both scientist and layman. He was put through many experiments by one of the leading nerve specialists of Europe, and as a result the specialist suggested the trip into the harbor. Knudsen said that he could guide himself anywhere without using his eyes, and a steamer was chartered to put him to a supreme test. Knudsen had no knowledge of the harbor. He requested that a person knowing the channel should hold two finger-tips against the side of his head. Professor Fridenreich consented to this, and himself pressed two finger-tips against Knudsen's temples.

The man handled the wheel without a sign of nervousness or uncertainty. It was impossible for him to see, yet he took more than a dozen sharp corners and followed a zigzag course throughout. All the scientists who witnessed the demonstration said that Knudsen possesses a mysterious power that actually may be a sixth sense.

Zate the other night on a street car, a soldier was going home for the first time. He was happy and proud. And his reason for being proud: there was a wound stripe on his right arm.

One man said to him: "Where were you wounded?" The soldier replied: "I was hit in the back with a piece of shell." The man gave a short laugh and said: "A funny place to get hit; which way were you going?"

It is needless to say that the soldier hit the man and here is what the soldier said: "If there are any more of you fellows thinks that a Yank ever ran, I can change your mind for you." —Indianapolis News.

### Puzzle for the Jury.

Here is a summing up which is hard to beat for succinctness: "Gentlemen of the jury: In this case the counsel on both sides are unintelligible, the witnesses incredible, and the plaintiffs and defendants are both such bad characters that to me it is a matter of indifference how you give your verdict."

## Champion Hen is Resident of Albany

The champion hen of the universe has been discovered at the home of a prominent Albany citizen.

The hen is of the barred rock variety and has been attempting to "set" since last February, despite every effort made to prevent her. For the past few months she has been busily engaged in a futile effort to hatch a chicklet from a china egg.

Yesterday the owner placed the egg in a pan of water but this morning found the hen had fished the egg from the pan, made a nest and was setting again.

Such is the spirit of motherhood!

## Y.M.C.A. Wins Final Game From B.M.C.

The Y. M. C. A. copped the deciding game of the series with the Business Men Wednesday afternoon, winning 1 to 6. Bunched hits and errors proved the undoing of the latter. Motherway was touched rather lively but managed to keep the Business Men from hitting when his meant runs. They had a number of men left on bases. Batteries: Y. M. C. A.: Motherway and Stewart; Business Men: McDonald and Jervis and Duncan.

## ARCHDUKE JOSEPH RETURNS TO POWER

REPORTED TO BE AT THE HEAD OF HUNGARIAN GOVERNMENT.

(International News Service.) LONDON, Aug. 7.—The socialist government of Hungary, headed by Premier Julius Peidl, has resigned, said a news dispatch from Budapest. Archduke Joseph is reported to be in power.

### Ivory Mats.

There are but three mats of ivory in existence. The largest one measures 8 by 4 feet; and, although made in the north of India, has a Greek design for a border. It is used only on state occasions, like the signing of important state documents. The cost of this precious mat was almost incalculable, for more than 6,400 pounds of pure ivory were used in its construction. Only the finest and most flexible strips of the material could be used and the mat is like the finest woven fabric.

### Didn't Lose Any Time.

Ruth was left to watch baby brother in his bed while mother prepared dinner. In a few minutes followed a thump and then a wall. Running upstairs mother said, "I thought I left you to take care of brother?" "Well, mother, I did call you the very minute he hit the floor," was the comforting response.

## 100,000 Prescriptions Were Filled Before "40" Was Discovered

J. C. Mendenhall, Evansville, Ind., spent 40 years in the drug business, compounded over 100,000 prescriptions from physicians educated in Europe and America before "Number 40 For The Blood" was discovered; the great specific for all blood diseases. Successfully employed in diseases of the glandular system, in blood poison, mercurial and lead poisoning, chronic rheumatism, catarrh, constipation, hepatic congestions, dyspepsia and stomach troubles, sores, ulcers, nodes, tumors and serofulous swellings, that have withstood all other treatment yield to "No. 40."

## HARNESS SHOP IS OPENED ON 2D AVE.

E. K. Harwell has arrived here to manage a new harness shop to be opened on lower Second avenue in a building recently completed by C. E. Malone. Shops now are operated in a number of leading cities of the Tennessee valley.

Mr. Harwell has had many years experience in the work. The machinery is being installed and operation will be started this week. It is planned to do all kinds of repair work and harness manufacturing.

## Several Accept the Board's Invitation

Several replies already have been received by the Albany Board of Commerce accepting the invitation to act as members of the committees appointed in the 35 communities to be visited by the Albany boosters this month. The members of the committee will be guests of the Board here at a luncheon in the rooms of the commercial organization on August 12.

## What Is Wise Spending?

Wise spending is the foundation of intelligent saving. We must spend to live; as we must work to earn. If we spend foolishly, get less for our work, less to save, less to spend the future.

Wise spending means: we think before we spend. Then we buy, to our ability what we really need to live. But we wisely hold our money, for tomorrow's needs or unforeseen emergencies.

Wise spending gives more for our work now, leaves more money for future spending.

It is getting full value goods, comforts, service, advancement, and fun.

## AMUSEMENTS

NOSTIC SAVED BY LOVE  
OF CHILD AT MASONIC

emption of Derelict Pictured in "The Turn in the Road," King W. Vidor's Beautiful Story of Life, at the Masonic Theatre Thursday and Friday.

ve is the keynote of "The Turn in the Road," a photo-drama written and produced under the direction of King W. Vidor, one of the most talented of the young writers for the screen. Vidor has succeeded in mak-

ing his drama a vehicle for teaching the omnipotence of love through the medium of a child. A man who has been brought up in the fear of God, loses his faith when his bride of a year dies in child birth, goes down into the depths, and becomes an epileptic and a derelict. After years of vain search for the truth he is regenerated by the simple faith of a child, his own, whom he had deserted. The human note is dominant throughout, while pathos, wholesome humor and a tender love-story combine to make the picture one of the most appealing screen dramas ever produced. Pictorially, the production is a mas-

terpiece of artistic beauty, and the realism is accentuated by a vivid storm scene during a big dramatic climax. The production was made by the Brentwood Film Corporation and is released through Exhibitors Mutual exchanges.

MAY ALLISON SEEN  
IN ROMANTIC COMEDY

"The Island of Intrigue" to be Shown at the Delite Theatre Today.

"The Island of Intrigue," a stirring romance of love and adventure in which May Allison enacts the

leading role, will be the feature at the Delite theatre today and shows the young actress in her best vein.

The story deals with the abduction of a wealthy society girl by a band of blackmailers who spirit her off to a lonely island in the Pacific ocean where they hold her for a fabulous ransom. How she outwits them and effects her escape is shown in a series of thrilling incidents which culminate in a startling denouement.

Romance is cleverly interwoven in the gripping plot and the heroine adds to her experiences by falling in love with a young man whose reasons for being on the island are as strange

as her own.

Miss Allison is seen at her glowing best in the character of Maids, and others of noteworthy mention in the cast are Jack Mower, Frederick Vroom, Mrs. Lucille Ward, Gordon Marr, Lillian West, Hector V. Sarno, Tom Kennedy, Chance Ward and Edward Alexander.

The picture was made by Henry Otto and produced under the personal supervision of Maxwell Karger, director general.

COMEDIAN HAS ROLE  
OF FLIRT AT SEASHORE

"Curing Billy" is the title of the bill

at the Masonic for today. It is presented by the Wonderful Baby Company, the same organization which showed "Billy's Night Out" the first part of the week.

The new play is in two acts, the first scene being laid in the lobby of a fashionable hotel, while the second is at the famous seaside resort, Atlantic City. The bathing girl numbers in this last act are particularly attractive, and the costumes are brand new.

Billy Graves in the title part is a flirt who goes to Atlantic City, and of course gets into all kinds of trouble. His mix-ups with the guests and the seaside visitors makes fun a plenty.

THEY'RE GOING TO WEAR  
'EM SHORTER IN CHICAGO

(International News Service.) CHICAGO, Aug. 7.—Day's Fashion may have taken a definite stand against conservation of cloth in bathing suits for women, but not so in the Fall dresses and skirts. A bevy of Chicago dress buyers arrived in the Loop and brought with them the models that will be seen everywhere this Fall. They are just like the "high-ones" being worn in Paris—if not just a bit higher. Maybe the leaves on the trees will blush a little redder, but the hose handler is smiling.

## ADVERTISE ITS OWN WARES

Know-It-All Family Shrinks From No  
Publicity in Pointing Out Markets  
to Be Patronized.The Know-It-All family is increasing  
here.Members of this large and important  
branch of the human family seem to  
have decided that there is no place  
in the world quite so fine as the na-  
tional capital, judging from the large  
number of these busybody folk to be  
heard in the streets, offices and other  
places.You will know a Know-It-All when-  
ever you hear him or her. It will be  
a mild-mannered little man discussing  
at great length and in a loud voice—  
always loud—the proper solution of  
the question of world peace.It will be a very young man who  
understands tactics, logistics and all  
the other branches of the military art  
from A to Z, and who does not hesi-  
tate to offer free advice—at several  
thousand miles distance—to General  
Foch, General Pershing et al.It will be a young woman who is  
quite sure—in fact, doubt never enters  
her head—that she is eminently qual-  
ified to speak—and, of course, loudly—  
upon all points of domestic economy.  
She gives mother and grandmother  
pointers on how to cook and sew and  
sweep, and knows all the best meth-  
ods for taking care of babies.It will be—but what is the use? All  
that is possible is to mention a few,  
and listen to the others.—Washington,  
Star.

## WHAT WAS THERE TO SAY?

Simple Frank of Fate That Caused  
Embarrassment Surely Hard Thing  
to Explain Away.The minister of a certain small town  
Indiana church recently held a num-  
ber of meetings for his young men  
members, in which he warned them  
against being frivolous in the choice of  
wives, etc. "Modest young women  
should always be chosen," he quoted  
and then delivered a heavy tirade  
against the prevailing short skirts and  
silk stockings.Several of the young girls were rather  
indignant and avoided the minister  
for a time. But one day as he was  
coming home from shopping for his  
wife he met two who at first were  
rather cold, but as the conversation  
progressed became distinctly amused  
and finally departed giggling. The  
younger one fired this final retort:  
"I'm glad you changed your mind on  
some things, Reverend T.—" "What?"  
The minister wondered on that last  
speech all the way home. "Then he re-  
peated it to his wife. She looked at  
him closely and then burst out laugh-  
ing. "No wonder," she exclaimed, and  
held up for him to see the magazine  
he was carrying.Some way in packing his bundles to-  
gether he had turned it inside out and  
there, facing the young women, had  
been an advertisement of very fancy  
rose-colored silk stockings on a very  
beautiful model.—Indianapolis News.

## He Wanted to Know.

A well-known St. Louis society woman  
has some very interesting and in-  
telligent grandchildren, and this is the  
story she tells upon herself. Her little  
grandson, looking puzzled, said to her:  
"Grandmother, how does it come that  
your name is Brown and father's name  
is Smith, when you are his mother?"  
These are, of course, not the names,  
but they will do for the story."I'll explain, dear," said grandmoth-  
er. "You see, I had several names.  
First my name was White, then I mar-  
ried your father's father, Mr. Smith,  
and I became Mrs. Smith, and that is  
your father's name. Then he died and  
I married Mr. Brown.""And where is Mr. Brown?" asked  
the child.  
"He is dead, too," said grandmother.  
"Then what will be the name of the  
next man you will marry?"  
"Well, I couldn't say right off," said  
grandmother. "I'll have to think about  
that."

## Why Not Raise More Sheep?

The fur that warms a monarch  
warned the bear. But the wool that  
warms a sheep makes two good spits  
for a man.Only one sheep in twelve living to-  
day is an American sheep, although  
Americans require a quarter of all the  
fleeces every year.Farmers and ranchers could double  
their flocks and still they would not  
supply enough wool for our home use,  
declares "Glad" in the Philadelphia  
Press. We need in the United States  
more than a sheep for every person,  
and that accounts partly for your dear  
large chops and leg of mutton.But it isn't expensive wool alone  
that boosts the price of your new  
spring suit.The wool in a \$50 suit stands the  
maker less than a tenth of what you  
pay for it.

## University to Teach Business Methods.

Four new professorships are to be  
established at Edinburgh university,  
i. e., zoology, forestry, psychiatry  
(mental diseases), and accounting and  
business methods. The salaries in the  
first-named two have been fixed at  
\$5,000 and in the other two at \$3,500.  
The sum of \$15,000 has been raised  
by a number of citizens in Edinburgh  
and Leith (Scotland), to endow the  
chair of accounting and business  
methods. It is also understood that  
funds for a lectureship in another  
branch of commerce are about to be  
provided by the same subscribers.—  
Trade Commissioner H. G. Brock,  
London.

## OUR FURNISHINGS APPEAR

to the man who is fastidious as  
his apparel. While fully up to  
minute in style and fabrics em-  
ploys the style is tempered by the  
good taste which all really fine  
sers insist upon. A look at our  
nest shirts, neckwear, etc., will  
demonstrate this conclusively.

## ORDER OF PUBLICATION

LOUIS E. BOEGLER

vs.

ARNOLD BRANDLEY, et al.  
Morgan County Circuit Court  
In EquityIn this cause, it is made to appear  
to the Register, by the affidavit of  
Solicitor for Complainant, that the de-  
fendants Arnold Brandley, C. A. Mit-  
chell, Estelle W. Brandley, George E.  
Brandley, Ed Brandley, Emma B.  
Brandley, Edwin S. Baker, Virginia  
Baker and Frances E. Baker are non-  
residents of the State of Alabama,  
and that their respective residences  
and post-office addresses are unknown  
and cannot be ascertained after dili-  
gent effort, and further, that the  
defendants are over the age of twenty-  
one years.It is therefore ordered by the Rec-  
ister that publication be made in the  
Albany-Decatur Daily, a newspaper  
published in the County of Morgan,  
once a week for four consecutive  
weeks, requiring the said Arnold  
Brandley, C. A. Mitchell, Nancy Mit-  
chell, Estelle W. Brandley, George E.  
Brandley, Ed Brandley, Emma B.  
Brandley, Edwin S. Baker, Virginia  
Baker and Frances E. Baker to plead,  
answer or demur to the bill of com-  
plaint in this cause by the 6th day of  
September, 1919, or in thirty days  
hereafter a decree pro confesso may  
be taken against them in said cause.  
This 6th day of August, 1919.

## DECATUR DISTRICT

## CONFERENCE

Decatur District meeting of the  
Women's Missionary Society, will be  
held in Central Methodist church  
September 10 and 11. We urge each  
society to send delegate from Adult  
Young People and Junior Societies.  
Also extend a cordial invitation to the  
Pastors of the district to meet with  
us, with at least one lady from their  
church. A program of unusual in-  
terest has been arranged. You can't  
afford to miss hearing Mr. M. L.  
Neagrine, new Centenary Secretary.  
Mr. J. D. Elliott, our new Conference  
President, our own dear Louise Rob-  
inson, just returned from China, and  
others who will have inspiring and  
helpful messages for us.Mrs. S. D. Johnson,  
District Secretary.

## No Jazz There.

A dance given at Albert hall recent-  
ly in London and patronized by all the  
nobility, including Queen Mary and  
Queen Alexandra, had upon its pro-  
gram fox-trots and other dances of the  
kind so popular before the war, but  
no "jazz." England is said to be  
dancing mad, but that the dancers do  
not take kindly to this latest Amer-  
ican dance, although American dances  
are as a general thing very popular.  
The "Pence Valse" is the newest Eng-  
lish dance and is said to have been  
appreciated for three minutes when the  
first notes of the waltz were played.

## THE HAPPY HOME OF TO-DAY

may be a heap of smoking ruins to-  
morrow. So many things  
cause fire that no house is immune.  
The only protection against all loss is  
fire insurance. A policy in a good  
company like the one we represent  
will afford you that protection in its  
best form. It is your duty to insure  
your home.Penney & Whitman

## Neil Gwynne Custom.

The custom of placing an orange on  
a plate near the door of Savoy chapel,  
London, the Sunday after Christmas  
is probably a survival of the custom  
which prevailed at this chapel after  
the death of Neil Gwynne. In those  
days it was usual, in memory of the  
orange-girl, who was notably large-  
hearted and a kindly giver of alms,  
to place an orange on the plate when-  
ever alms were distributed.
